Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jean Lown on October 7, 2003.

The application has been amended as follows:

Cancel claims 22-24.

Claim 1: In line 11, delete "an at least 20-fold" and insert --a 24- to 29-fold-- before "increase".

Claim 12: In line 4, delete "an at least 20-fold" and insert --a 24- to 29-fold-- before "increase".

Claim 21: In line 11, delete "an at least 20-fold" and insert --a 24- to 29-fold-- before "increase".

Reasons for Allowance

The following is an examiner's statement of reasons for allowance.

The prior art does not teach the structure recited in claim 20. The prior art does not teach any motivation to pick the particular amino acid sequence recited in claim 20 as the peptide portion of the claimed substrate, nor does the prior art teach the claimed sequence as part of any other (e.g. larger) protease substrate, therefore claim 20 is not suggested by the prior art.

The closest prior art of KOMORIYA teaches a method and substrate which results in an increase in fluorescent intensity for homo-labeled substrates, but the highest increase in fluorescence intensity specifically taught is 12-fold. None of the prior art specifically teaches or fairly suggests enzyme substrates, or methods of using such substrates, wherein the increase in fluorescent intensity upon cleavage is a 24-29 fold increase over that of the quenched dye groups.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Claims 1, 4-10, 12-13, and 15-21 are allowed.
